

A highly motivated and detail-oriented Computer Science graduate with strong proficiency in web development and programming. Quick learner and adaptive, capable of troubleshooting technical issues, working efficiently in dynamic environments, and tackling new challenges with confidence. Passionate about front-end technologies, problem-solving, and innovative solutions, with experience in React, Vite, JavaScript, and machine learning applications. Dedicated to continuous growth, structured learning, and applying my skills to impactful projects.

#### **Tutor**

Volunteered as a tutor, teaching web programming (HTML/CSS/JS) and debugging code. Assisted university remedial students with mathematics concepts.

#### **INTERNSHIPS / ACADEMIC PROJECTS**

Intern – Minister of Innovation and Technology (MINT)

- Developed a digital building directory using React and Vite, ensuring seamless user experience.
- Troubleshot system bugs, refined software functionality, and contributed to a collaborative development team.

Heart Disease Detection Using Machine Learning

- Designed a machine learning model to analyze heart disease risk factors using patient data.
- Conducted testing and evaluations to refine prediction accuracy.

## **Education**

**BSc in Computer Science** 

Debre Birhan University | Graduated: March 07 2025 | CGPA: 3.1

## **Certificates**

Eshe course

# **Skills**

**Technical Skills** 

- Front-End Development: React, Vite, JavaScript, HTML/CSS
- Machine Learning: Predictive Modeling, data analysis (Python, scikit-learn, etc.)

Soft Skills: Teamwork, Time Management, Problem Solving, Leadership.
